Office Action Summary	Application No. 10/565,229	Applicant(s) BRODT ET AL.	
	Examiner Essama Omgba	Art Unit 3726	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Information Disclosure Statement

1. Document number US 2002/069506 listed on form PTO-1449 has not been considered because the document number is not a valid number. Applicant is advised that the date of any re-submission of any item of information contained in this information disclosure statement or the submission of any missing element(s) will be the date of submission for purposes of determining compliance with the requirements based on the time of filing the statement, including all certification requirements for statements under 37 CFR 1.97(e). See MPEP § 609.05(a).

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 10-28 are rejected under 35 U.S.C. 103(a) as being unpatentable over Gehringhoff et al. (US Patent 6,878,220) in view of Gupta et al. (US 2002/0174920). With regards to claims 10 and 20, Gehringhoff et al. discloses a method for producing a press-hardened component from a semi-finished product made of unhardened, hot-formable steel sheet, wherein a component blank is formed from the semi-finished product using a cold forming process, cutting the component blank as required, and heating press-hardening the cut component blank using a hot-forming tool, see column

Art Unit: 3726

1, lines 14-27 and 65-67, column 2, lines 1-7, 26-27 and 50-67. Gehringhoff et al. does not disclose the press-hardened component being covered with a corrosion-prevention layer in a coating step. However Gupta et al. teaches painting a trimmed hardened component after the hardening step, see paragraph [0035]. Therefore it would have been obvious to one of ordinary skill in the art at the time the invention was made, to have covered the press-hardened trimmed component of Gehringhoff et al. with a corrosion-prevention layer in a coating step, in light of the teachings of Gupta et al., in order to provide a thorough coating of the hardened trimmed component. Applicant should note that the component of Gehringhoff et al. can be trimmed before or after the press-hardening step.

For claims 11 and 21, see paragraph [0003] of Gupta et al.

For claim 12, Applicant should note that such cold-forming process is old and well known in the art.

For claims 13-19 and 22-28, Applicant should note that the claimed steps are old and well known in the art.

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
